

ncflc[™] National Center for Families Learning CONFERENCE 2018

SEPT. 24-26 🌴 FT. LAUDERDALE, FL

Children's Services Council is sponsoring an exciting, early childhood-focused pre-Conference event at NCFL's Families Learning Conference at the Ft. Lauderdale Marriott Harbor Beach Resort & Spa.

In collaboration with the Global Family Research Project (GFRP), formerly Harvard Family Research Project, and The Early Learning Lab (ELL), NCFL will host a partnership event for NCFL Conference attendees centered around family engagement and family service learning in early childhood, an overlapping primary interest of Broward's Early Learning Community and of Conference-goers. This one-of-a-kind event, led by national field experts, will be a 4-hour, active, indoor/outdoor session using the tenets of design thinking and bringing Conference attendees together to brainstorm, interact, and actively participate in a powerfully engaging session.

This pre-Conference event will be held on Sunday, Sept. 23rd, with first-come, first-serve seats available at no charge for the first 50 attendees that register. The cost of these seats have been underwritten by the Children's Services Council of Broward County.
